

Dimensions of Digital Learning

Fill out the chart provided below, briefly describing activities that fall within each dimension of effective ICT integration. Include comments about your own beliefs of if and how these dimensions should be addressed, or could be further addressed. Point out any exemplars of ICT integration in your school.

Attitudinal	Curricular	Pedagogical	Spatial	Temporal

Assignment Questions:

1. Are there any gaps in the five dimensions that have not been covered by any of the activities you listed?
2. What barriers to effective integration occur in your school in any of the five dimensions?
3. How would you describe effective ICT integration to your colleagues?
4. Current literature on the topic of technology use in education indicates that barriers are generally related to inadequate training of educators and the lack of supportive infrastructure within the school environment. Comment on how you feel about the level of support for teachers in your school. What might you do to encourage teacher professional development and supportive infrastructure? Who would you talk to and what would you say?
